

Sports Premium Strategy 2019 – 2020

Rationale

At Ickford we believe that children should be encouraged to live healthy, active lives regardless of gender, race, ability or socio-economic status. Our endeavour is to ensure that every child has access to a broad and well taught PE curriculum during school hours that can be enriched by taking part in a range of activities beyond the normal curriculum. We want the children to recognise that sport can be competitive and to provide opportunities to develop as individual competitors and team members and to know that taking part can be simply recreational or to develop physical fitness and health benefits.

As we encourage a healthy body, so do we also support learning for a healthy and positive mind by teaching children how to be resilient and optimistic in their outlook.
